

# infoRouter V8.0 Server & Client Requirements

Please review this document thoroughly before proceeding with the installation of infoRouter Version 8. This document describes the minimum and recommended server and client configurations and is meant to be a guideline for best performance. You may choose to allocate more than the recommended resources but allocating lesser resources may result in poor performance.

## Requirements for the Server

### **SERVER HARDWARE (MINIMUM) REQUIREMENTS**

---

Intel Pentium 4 Processor (or higher)  
4 GB RAM (or higher preferred)  
500 MB Disk Space (Minimum)  
A Network Interface Card (NIC).

### **SERVER OPERATING SYSTEM SOFTWARE**

---
